

Graham, Penny
Email

I have been a Parish Councillor since 2010 and am presently Deputy Chair of the Parish Council. I am also a Flood Warden. I was a member of the team that worked hard over a two year period to try and keep the Doctor's Surgery open.

I am interested in people and my aim is to aid communication between residents and local authorities, so that we can all live in a better environment. An example has been my contribution as a member of the team drafting the village Resilience Plan.

My background is in social services, catering and community involvement. My special interest is in the coordination of Social Services and the NHS. I am a member of Healthwatch Kent as a public representative and I am also actively involved in KCC consultations for Social Services in Kent. The highlight at the moment is the implementation of the Strategic Transformation Plan (STP) for the integration of Social Services and the NHS. I am part of a trained team monitoring the consultation process in Kent.

I have lived in the village since 1987 and am presently actively involved in a number of village activities - Russett Players, CAMEO (Salvation Army), Community Choir, and WI. I am also a Library key holder and help co-ordinate the Book Lovers Group. I am also a Silver Line 'Friend' volunteer.
